Myat Thu

Works at IPH Limited | Certified: MD-102, AZ-900, SC-900 and Google IT Support Specialist
Southbank, Victoria, Australia

Summary

I am an IT professional specialized in the Microsoft ecosystem, with a strong focus on Modern Device Management and Cloud Administration. In my current role, I have moved beyond traditional support to focus on automation and security. I leverage Microsoft Intune (MD-102 Certified) and Entra ID to ensure seamless operations and compliance.

Experience

IPH Limited

Service Desk Analyst

May 2025 - Present (1 year 3 months)

Melbourne, Victoria, Australia

Key Responsibilities:

- 2nd Level escalation point for Service Desk team
- Provide support and guidance to other team members

MYER

Office Support Assistant

June 2019 - October 2024 (5 years 5 months)

Australia

As part of the office team for store management, my role within the business is to assist managers with day-to-day store operations.

Utilizing Microsoft Excel producing end-of-day reports.

Managing online-returns and POS experience.

Assisting in training existing and new team members with safety inductions.

Engaging with customers face to face occasionally. Maintaining customer contact right through to resolution.

Stakeholder management internally, working across different technical (QA) and non-technical (Sales) teams to ensure resolutions are reached as quickly as possible

Making public announcements and work on an “on-call basis”.

Support with technical training of clients and new team members on usage of the software.

Azured Consulting

Support Engineer

July 2022 - November 2022 (5 months)

Australia

Azured is a cloud-partner of Telstra and a managed service provider. My role was as an IT Service Desk, supporting end users with the configurations for their cloud environment.

Providing Level 3 IT Support regarding client’s network and firewall configurations and provides maintenance of the client’s cloud environment.

Managed remote troubleshooting/assistance within an enterprise environment.

Included experience in troubleshooting.

Account creations and deletions, on Microsoft 365 accounts.
