Myat Thu

Service Desk Analyst

Melbourne, Australia myatgeorgethu@gmail.com linkedin.com/in/myat-george-thu myatgthu.github.io/resume.io

PROFILE

Service Desk Analyst working across the Microsoft ecosystem: endpoint management with Intune, identity with Entra ID and Active Directory, and Microsoft 365 administration. Second-level escalation point at IPH Limited, after two years of level one and two support for more than 400 stores at The Reject Shop. Known for turning a repeat problem into a written process the whole desk can run.

EXPERIENCE

Service Desk Analyst

May 2025 to present

IPH Limited · Melbourne · Permanent, full time

First and second level support for the IT and business users of every IPH member firm across Australia and New Zealand, reporting to the Service Delivery Manager (ANZ).

- Second-level escalation point for the service desk, guiding, training and mentoring the team.
- First point of contact by phone and ticket queue, troubleshooting onsite and remotely to agreed SLAs.
- Logs every request in the ticketing system and documents procedures, fixes and escalation paths in the knowledge base.
- Builds laptops, mobiles and computers to the standard operating environment, and onboards and offboards users.
- Active Directory administration, systems configuration and maintenance, meeting room AV and mobile devices.
- Monitors outage alerts, sends communications to all firms, and works with the Service Delivery Manager to improve processes.
- Strategic IT projects across the firms, handover to BAU support, and Change Board representation for service desk changes.
- After-hours on-call for critical incidents; supports cyber security controls and the annual IT process audit.

IT Support Analyst

Feb 2023 to May 2025

The Reject Shop · Melbourne

Level one and two support for more than 400 stores, the Store Support Centre and the distribution centres, reporting to the IT Service Delivery Lead.

- Cleared 40 to 50 tickets on a heavy day, keeping desktops, laptops and servers running with daily health checks.
- Diagnosed hardware within a day and configured software within two to four hours.
- Built machines to the SOE with Windows Deployment Services, with every new account ready before a starter's first day.
- Active Directory, Exchange, Teams and Microsoft 365 end to end, plus imaging, printers and server support.
- Managed network addressing and access, coordinated equipment rollouts, and trained users.
- Replaced failing docks across the estate with daisy-chained hub monitors, and wrote the rollout playbook for the desk.
