📍 Melbourne, Australia

PROFILE

Service Desk Analyst working across the Microsoft ecosystem: modern device management with Intune, identity with Entra ID and Active Directory, and Microsoft 365 administration. Second-level escalation point at IPH Limited after two years supporting more than 400 stores at The Reject Shop. The habit that runs through every role: turning a repeat problem into a written process the whole desk can run.

EXPERIENCE

Service Desk Analyst

MAY 2025 TO NOW

IPH LIMITED · MELBOURNE

- Second-level escalation point for the Service Desk, guiding and supporting the team.
- First point of contact by phone and ticket queue, owned to the agreed SLA, with every fix logged and written into the knowledge base.
- Builds laptops, mobile devices and computers to the SOE; Active Directory administration; AV meeting rooms and mobile devices.
- Strategic IT projects across all firms, handovers into BAU support, and the Change Board for Service Desk changes.
- After-hours on-call for critical incidents; cybersecurity measures and the annual IT audit.
- Works with the Service Delivery Manager to improve desk processes and keep them consistent.

IT Support Analyst

FEB 2023 TO MAY 2025

THE REJECT SHOP · MELBOURNE

- Level 1 and 2 support for more than 400 stores, 40 to 50 tickets a day, public holidays included.
- Onboarding and offboarding across Active Directory, Exchange mailboxes, distribution lists, Microsoft 365 and Teams admin.
- Reimaging and laptop setup, approved app installs, peripherals, Teams Rooms, and in-store failures from routers to phone systems.
- **Replaced failing Lenovo docks** with daisy-chained hub monitors, and wrote the rollout instructions for the desk.

CERTIFIED

**Microsoft 365 Certified:
Endpoint Administrator
Associate (MD-102)**

EARNED NOV 2024 · VERIFY

**Security, Compliance, and
Identity Fundamentals (SC-900)**

EXPERIENCE, CONTINUED

Support Engineer

JUL 2022 TO NOV 2022

AZURED CONSULTING · TELSTRA CLOUD PARTNER AND MSP

- Level 3 support on client network and firewall configuration, and maintenance of client cloud environments.
- Remote troubleshooting in enterprise environments; Microsoft 365 account creation and removal.

Office Support Assistant

JUN 2019 TO OCT 2024

MYER · CHRISTMAS CASUAL OCT 2018 TO FEB 2019

- End-of-day reporting in Excel, online returns and the POS experience.
- Safety inductions and software training for new team members; resolutions across QA and sales teams.

SIDE PROJECT

POKER MONEY

POKERMONEY.ORG

POKER NIGHT, SETTLED.

- A free web app for private home poker games: buy-ins and cash-outs go in, and it settles who pays whom in the fewest transfers. It keeps the score and never touches the money.
- Lead contributor, built with three friends and run as a live service.
- Vanilla JavaScript on a Cloudflare Worker and D1. Installs on a phone, works offline, and ships to Android as a Trusted Web Activity.
- Verified self-serve sign-up, roles enforced on the server including a read-only viewer, and private crews whose isolation is proven by tests.
- 380 automated tests across 16 suites, led by the settlement maths. No ads and no tracking scripts.

STUDY

Bachelor of Business, Information Systems

RMIT University, 2019 to 2021

Diploma of Information Technology

RMIT University, 2018

Foundation, Information Technology

Trinity College, the University of Melbourne, 2016 to 2017

Burmese, native. English, professional working.

AVAILABILITY

Open to full-time and contract roles in Melbourne, and replies within a day. The full record, with every certification verifiable, plays at myatgthu.github.io/resume.io.

FIELD REPORTS

Docks out, hubs in

THE REJECT SHOP · ENDPOINT ROLLOUT

Retail docks kept failing across 400+ stores, each one a replacement and a callout. Replaced them with daisy-chained hub monitors and wrote the rollout playbook: simpler desks, far fewer failures.

Memory, written down

SERVICE DESK · KNOWLEDGE

The same issues kept returning to the same people. Documented procedures, knowledge articles and escalation paths, and became the level 2 point, so new starters pick the desk up quickly.

Day-one access

IDENTITY · DEVICES

No two machines left the bench the same way. SOE builds with Active Directory and Microsoft 365 administration took joiners and leavers end to end: compliant endpoints, a tidy account lifecycle.
